TECHABOUT NETWORK SITES HOSTED BY PK HOSTING

TECHi.com **WPArena.com** **TechEngage.com** **Medic.pk**

MetalSite.com **AccountStop.com** **aiTransform.com**

These are affiliated TechAbout-network properties, not independent customer endorsements or evidence of measured uptime. See the **public TechAbout portfolio** for the network relationship.

WHY PK HOSTING

Everything you need to succeed online

Clear plan information, practical hosting support and a clean client dashboard. Pick the service, pay, view invoices and manage requests on the main site.

Fast SSD Storage

Shared hosting runs on SSD storage with a tuned managed stack to keep your sites responsive.

SSL & Sensible Security

Hosting plans include SSL support, secure defaults and practical guidance for keeping your site protected.

Real Human Support

Reach a local team by phone, email and dashboard tickets. Live chat and our direct line run Mon–Fri, 9am–6pm PKT; weekends are covered by email and tickets are answered every day.

Daily Backups

Daily backup · files, databases and email included · On-site on the hosting server. This is not a separate customer-controlled offsite vault. · Restores from copies still listed in the dashboard are included. If no copy remains, recovery is scoped with support — there is no guaranteed older archive. · Best-effort restore. There is no contractual recovery-time SLA. Keep an independent copy of anything you cannot afford to lose. Details: /backup-policy/.

Assisted Website Migration

Already hosted elsewhere? Our team helps move eligible websites, email and databases with a clear plan.

1-Click WordPress

Launch WordPress quickly with our managed setup help and migration support.

WEB HOSTING PLANS

Pick a plan that grows with you

OUR PROMISE

The host that actually cares about your website

Our team has 16 years of web-hosting experience. Compare published plans and service terms, then contact us with questions before ordering.

Learn More About Us | Compare Pricing

Availability-Focused Setup

We match the hosting stack to the workload so your site has a practical reliability path.

We Treat Your Site as Ours

We keep ordering, provisioning and support hands-on, with real people accountable for each customer setup.

Easy Hosting Control

Manage websites, email, files and databases from the PK Hosting dashboard.

Clear Billing Rules

Pricing, renewal terms and refund limits are published before checkout so there are no surprises later.

2010

Hosting experience since 2010

CHECK OUR CLAIMS

What you can inspect before ordering

These public pages explain the service and its limits. They are not independent performance audits or customer endorsements.

Current service checks

The status page checks selected public services and shows when they were last checked. It does not measure historical uptime or every hosting node.

View system status

Published backup terms

Review each plan's stated backup frequency, retention, on-server location and best-effort restore terms. This policy is not proof that a specific restore will succeed.

Read the backup policy

Published support channels

Our contact page lists phone, email, ticket options and support hours. We do not publish a measured response-time claim here.
